

## 360 Finance Adopts New Revenue Recognition Accounting Standards

January 14, 2019

SHANGHAI, China, Jan. 14, 2019 (GLOBE NEWSWIRE) -- 360 Finance, Inc. (NASDAQ: QFIN) ("360 Finance" or the "Company"), a leading digital consumer finance platform and the finance partner of the 360 Group connecting over one billion accumulated mobile devices, today announced that it has adopted ASU 2014-09, Revenue from Contracts with Customers (Topic 606), and all subsequent ASUs that modified ASC 606 in the 4th quarter of 2018 and for the full year of 2018, and have elected to apply it retrospectively for the year ended December 31, 2017, in order to provide more comparable insights of the Company's performance with industry peers.

The cumulative adjustment as a result of transitioning to the new accounting policy will primarily arise from the timing of revenue recognition for service fees collected in monthly instalments related to the Company's loan products being recognized earlier under the ASC 606. The most meaningful impacts are as follows:

Under previous guidance ASC 605, transaction fees collected in monthly instalments are considered contingent and, therefore, are not allocable to different deliverables until the contingency is resolved (i.e. upon receipt of the monthly installment). Upon adoption of new revenue recognition standards, revenue is recognized upon successful facilitation of the loans provided on the Company's platform using the total consideration estimated to be received and allocated to the different performance obligations based upon their relative fair value.

With the adoption of ASC 606, the Company expects the total net revenue to be (i) RMB 1.7 million for the period from the inception date of July 25, 2016 to December 31, 2016; (ii) RMB 788 million for the year ended December 31, 2017; and (iii) RMB 2,880.7 million for the nine-month period ended September 30, 2018. As ASC 606 mainly addresses revenue recognition from contracts with customers, the Company expects the change in net income to be primarily driven by change in revenue.

This change of accounting policy does not affect the Company's ongoing business operations and the Company is not aware of any abnormality in daily operation.

### About 360 Finance
